

In the Horse Year 2026 - Mountain & Lake Kora 22 days with Ruth & Flaviu

Mt. Kailash and Manasarovar Lake Kora & Tirthapuri

Every 12 years, the blessing power of Mt. Kailash increases many times over. We are very happy to travel to our second home for another pilgrimage in the Holy Horse Year, with the opportunity to walk around Lake Manasarovar!

May we travel together to the spiritual heart of the Himalayas in the Holy Horse Year.

We will spend the acclimatization phase in the mandala of Samye, the oldest monastery in Tibet. There we will visit powerful Guru Rinpoche retreat sites. The encounters with yogis and yoginis on site are a heart-opening gift.

On the journey from central to western Tibet, we encounter small and large jewels, such as the Sakya main monastery with its incredible treasures and great charisma. The vast and varied high mountain landscape supports the process of getting in touch with inner silence.

During 13 days at Mt. Kailash, Lake Manasarovar & Tirthapuri, we can walk around the three places.

In doing so, we reflect on life; purify ourselves of negativity and accumulate much merit; recognize love, compassion, and liberating wisdom, integrate them into our own path, and radiate them - for the benefit of all sentient beings.

Visits to our projects and friends are further highlights that give us touching insights into local life. At the end of this special journey, we visit the Jokhang Temple with the JOWO statue in Lhasa and move with the stream of pilgrims from all over Tibet.

Vastness, clarity and loving kindness enable purification, transformation and realignment
