

Insider Tour in the Holy Horse Year 2026 with Ruth & Flaviu 18 days

Every 12 years, the blessing power of Mt. Kailash increases many times over.

Due to high demand, we have put together this special, shorter trip for you, in which we visit the three most important pilgrimage sites in Western Tibet.

Mt. Kailash Kora, visit to Lake Manasarovar & Tirthapuri

May we travel together in the Holy Horse Year to the spiritual heart of the Himalayas.

We will spend the acclimatisation phase in the mandala of Samye, the oldest monastery in Tibet. There we will visit powerful Guru Rinpoche retreat sites. The encounters with yogis and yoginis on site are a heart-opening gift.

On the journey from central to western Tibet, we encounter small and large jewels, such as the Sakya main monastery with its incredible treasures and great charisma. The vast and varied high mountain landscape supports the process of getting in touch with inner silence.

Visits to our projects and friends are further highlights that give us touching insights into local life. At the end of this special journey, we visit the Jokhang Temple with the JOWO statue and the Potala Palace in Lhasa, moving with the stream of pilgrims from all over Tibet.

Openness, clarity and loving kindness enable purification, transformation and realignment
